

American Association for the Advancement of Science

The American Association for the Advancement of Science (AAAS) is the world's largest general scientific society, and publisher of the journal, *Science* (www.sciencemag.org). AAAS was founded in 1848, and serves some 265 affiliated societies and academies of science, serving 10 million individuals. *Science* has the largest paid circulation of any peer-reviewed general science journal in the world, with an estimated total readership of one million. The non-profit AAAS is open to all and fulfills its mission to “advance science and serve society” through initiatives in science policy; international programs; science education; and more. For the latest research news, log onto EurekaAlert!, www.eurekaalert.org, the premier science-news Web site, a service of AAAS. www.aaas.org

Science Books & Films: Your Review Guide to Science Resources for all Ages

Published by the American Association for the Advancement of Science (AAAS) since 1965, *SB&F* is the only critical review journal devoted exclusively to print and nonprint materials in all of the sciences and for all age groups. Every issue contains more than 150 evaluations of books, videos, software and Web sites for general audiences, teachers, and students from kindergarten through college. *SB&F* is devoted to improving science literacy by helping librarians, teachers, parents and others choose high-quality science resources for their libraries, classrooms and homes. *SB&F* believes that careful evaluation of these resources is vital to a better understanding of science by the next generation. www.sbsonline.com
